## Roosevelt Speeds Plan for Controls on Cost of Living

### Says Both Agriculture and Labor Must Make Tough Sacrifices

Washington, Aug. 26—(AP)—A new plan to keep down living costs by stabilizing both wages and farm prices is being readied by President Roosevelt for presentation to the country around Labor Day—September 7.

In making this announcement at a press conference yesterday, the chief executive said both labor and agriculture must make sacrifices—tough sacrifices, he emphasized—and that restrictions could not be placed on one without being imposed on the other.

He called labor leaders Philip Murray, CIO chief, and William Green, AFL president, to the White House today to go over the cost of living situation, as he already has done with farm and other groups.

No final decision has been reached, but the president said he hoped to have something ready to announce to the country in a radio speech, and simultaneously in a message to congress, before, on, or after Labor Day.

### Says Time Is Short

Whether new legislation would be sought was problematical, as Roosevelt said time was short and spiraling of costs may get out of hand in 30 days. Administration leaders began calling absent congressmen back to Washington, however, to receive his message.

The cost of living will be only a part of the speech he will make, he said, indicating he probably would touch on the war in general. Nonetheless, the anti-inflation problem was expected to highlight the address.

Speaking more plainly about wage and farm price stabilization than at any time since his seven-point price control message to congress on April 27, the president told his press conference that wages could not be stabilized without stabilizing farm prices, and farm prices could not be stabilized without stabilizing wages.

### Must Use Common Sense

Generally speaking, he said, wages should be stabilized at essentially present levels. But he qualified this by saying common sense should be applied. He did not believe, for example, that if food prices rose another 30 per cent, as Price Administrator Leon Henderson has said they might, he would say that was all right, he said. On the other hand, he added, if food costs were added down to where they are now, he saw no reason why labor should not get an advantage.

Reminded by a reporter that Agriculture Secretary Wickard had

## Believe Slain Tank Officer Had a Third Wife in New England

Manchester, N. H., Aug. 26.—(AP)—The belief that Captain David D. Carr, 27-year-old tank officer slain at Douglas, Ariz., allegedly by his wife, an Army colonel's daughter, had another life in New Hampshire was expressed today after an examination of the dead officer's picture.

Mrs. Florence Bellrose Carr, 30, employed as a shoe worker, is shown in the picture. Carr, it was said, was sure he was the man she married in Lowell, Mass., in 1935. Mrs. Carr said she had heard from her husband since he left Manchester several years ago.

## The War Today!

BY DEWITT MACKENZIE  
Wide World War Analyst  
(Telegraph Special Service)

As the diplomatic exchange Gripsholm plowed into the safe waters of New York harbor yesterday with its load of wounded Americans repatriated from the barbarities of loathsome Japanese prison cells, the home-comers wept and cheered brokenly at sight of the grand old Statue of Liberty and the Stars and Stripes of freedom.

Today in the far southwestern Pacific among the Solomon islands American and Japanese forces are locked in a great sea and air conflict which may go far towards determining whether those Stars and Stripes shall continue to promise liberty.

A Japanese victory might take the Nipponese a long way towards achievement of their announced ambition of dictating peace in Washington. That would mean the transfer to our America of the torture chamber, the whole-sale murders and rapings, and the insufferable militaristic repression which exceeds even Hitlerism in its brutal arrogance.

This is indeed a fateful moment for us and our allies. Not only is the wheel of fortune whirling in the orient, but over in the milling Russian theater Herr Hitler is throwing into the decisive battle of the Caucasus every ounce of striking power he possesses in an effort to make a kill. The position of the Red armies is one of dire peril, though it isn't by any means hopeless.

In perhaps eight weeks or so that wheel of fortune will stop spinning and the little ball will drop to tell us what our luck may be. Our great concern, of course, is Hitler. He must be stopped before snow flies. If we can keep him away from fresh resources, and preserve the Red fighting machine from destruction, then we shall have our grasp on sure victory, for we can handle the Japs once we have stopped Hitler.

Still, the Japanese and the Germans can't be considered as separate units at this juncture. The battle of the Caucasus and the battle of the Solomons are interlocking in their effect.

We haven't yet enough facts about the engagements in the Pacific to say that it will have decisive effects. We don't know the size of the forces engaged, and that is essential to our calculations.

However, from the meager information at hand it would appear that the Nipponese are gambling with a large section of their grand fleet. It also would seem that we have inflicted considerable losses on the enemy, but there's no word of what our own losses—if any—have been.

If the Japs are risking a great naval fleet, besides air power, then we have in the conflict all

## "Great Surprise" in Form of Secret Weapon in Store for Herr Hitler

London, Aug. 26.—(AP)—The head of the United States Army ordnance mission said today the British and Americans both were producing a secret weapon which would prove "a great surprise" to the Germans.

The ordnance chief is Brig. Gen. G. M. Barnes.

Speaking after a tour of British munitions factories, he declared that United States and British armament production was sufficient both in quality and quantity for "the support of a full-sized army in any enterprise."

General Barnes said some of the new British weapons now in production were "real eye-openers."

The general pointed out that the nature of his work, concerned chiefly with developing advanced types of munitions, must be secret, but declared neither the

## Two Addresses by FDR To Be Heard Throughout World

### Radio Talks Scheduled for Monday, Aug. 31, Thursday, Sept. 3

Washington, Aug. 26.—(AP)—President Roosevelt today scheduled two additional major radio addresses, one of which, on September 3, will be directed to the youth of the entire world.

The other, to be delivered August 31, will be made at the dedication of the new Navy medical center in suburban Bethesda, Md., on the 100th anniversary of the founding of the Navy's Bureau of Medicine and Surgery.

The White House disclosed also that a forthcoming presidential speech centering on the problem of spiraling living costs and inflation probably would be on Labor Day. Roosevelt had said yesterday he expected on, before or after Labor Day to send congress a message and make a radio address to the country on a plan, now being evolved, to combat inflation.

The September 3 speech will take place at 11:30 p. m., Central

## Quakes and Tidal Wave Strike Peru

Lima, Peru, Aug. 26.—(AP)—The residents of the little seaport of Lomas fled to the hills in terror last night when new earth tremors shook the village, which had been rocked by a severe earthquake then swept by a tidal wave.

The main quake in the region south of Lima occurred Monday and struck the towns of Nazca, Palpa, Ica and others causing at least 12 deaths, numerous injuries and unestimated property damage.

The tidal wave at Lomas was first reported today. Reports said the Pacific withdrew about 600 feet from the shore and surged back with a rush, flooding much of the town, destroying several warehouses and injuring many persons.

As the people of Loma huddled in the hills, their discomforts and the terror of many were increased by the eclipse of the moon which plunged the night into complete darkness.

At Canta, a small inland town northeast of Lima, Monday's earthquake was accompanied by a torrential rainfall which ceased abruptly when the tremors stopped.

The entire 10,000 population of Nazca was living in the streets and fields as a result of quake damage.

## Youngest Brother of King George Is Killed in Service

### Duke of Kent One of 13 Who Die in Crash of RAF Flying Boat

London, Aug. 26.—(AP)—All Britain, where the grievous message "killed on active service" has darkened countless households, offered understanding sympathy today to her royal family, bereaved by the death of the Duke of Kent, King George's youngest brother, on a wartime mission.

The Duke, fifth in order of succession to the throne, died in the line of duty yesterday when the Sunderland flying boat which was taking him to Iceland for the RAF crashed in northern Scotland.

Circumstances surrounding the crash of the four-engined, 20-ton flying boat were held in strict secrecy but an authoritative source said it was in no way due to enemy action.

The plane was believed to have crashed against a mountain. The lord chamberlain announced that by command of the king of the court would remain in mourning four weeks.

Fourteen of the 15 persons in the plane were killed and their bodies recovered. The only survivor was the rear gunner.

The body of the duke, who was the first member of the British royal family to become a fatality of war in a century, was to be brought to London later.

An Air Ministry investigation has been launched into the crash, which occurred in desolate country about 60 miles from the take-off. Press reports said it was in an area where other planes have been wrecked.

### Most Air-Minded

The 39-year-old youngest son of Queen Mary and the late King George V was the most air-minded of all the royal family.

His career in Britain's service began as a naval cadet, at his father's choice, before he was 14. But his interest turned to aviation and he served devotedly with the RAF.

The marriage of the Duke of Kent to beautiful Princess Marina of Greece in 1934 was one of the most resplendent royal occasions of the century. They had three children, Prince Edward, 6; Princess Alexandra, 5; and Prince George, who was born last July 4 and bears also the name of Franklin for President Roosevelt, his godfather.

As soon as news of Kent's death was telephoned to King George and Queen Elizabeth at one of their summer palaces, the king sent a special messenger to break it to the duchess at her simple Buckinghamshire house, the Copps, and arranged for other members of the royal family to go there to comfort her.

The news reached Queen Mary

## Strike Closes East Chicago Oil Plants

East Chicago, Ind., Aug. 26.—(AP)—A strike of approximately 2,500 CIO oil workers for higher wages kept three oil refinery plants and an oil loading terminal closed today.

The strike began yesterday at refineries of the Socony-Vacuum Refining Corporation, the Sinclair Refining Company, and Cities Service Oil Company, and the Shell Oil Company's loading terminal.

M. B. Roberts, secretary of local 210 of the Oil Workers International Union, said there was a standing invitation to company representatives to discuss terms of settlement. Management representatives were not available for comment.

The union was seeking a 10 cents an hour increase for all workers involved. Roberts said present pay scales ranged from 80 cents to \$1.46 an hour.

## The Weather

WEDNESDAY, AUG. 26, 1942  
Chicago and vicinity: Showers and somewhat warmer tonight and Thursday forenoon; moderate to fresh winds.

Illinois: Showers and scattered thunderstorms this afternoon, tonight and Thursday forenoon; warmer.

A spokesman for the British Ministry of Supply said the ministry was considering sending a group of British munitions workers to the United States to instruct American women in certain types of work.

## Critical

London, Aug. 26.—(AP)—Portions of the British press frankly told Prime Minister Churchill today that Britain needs concrete evidence that his trip to Moscow and the Middle East has produced results and warned that he must bolster home morale.

The Daily Herald, mouthpiece of the potent Trades Union Congress, declared: "The British public's taste for trivial gossip about the prime minister's missions is flagging and its appetite for real news—news of results—is approaching the famine point."

The Herald said Churchill's trips to Moscow, the Middle East and Washington "will become more curious of history unless there emerges from them a coherent plan and common strategy for conduct of the war."

## Municipal League Wants State Help in Defense Setup

Springfield, Ill., Aug. 26.—(AP)—The state government was asked today to set up a \$20,000,000 distributive fund to aid every Illinois city and town in paying the cost of its civilian defense program.

The Illinois Municipal League recommended that the general assembly appropriate the fund out of a \$45,000,000 balance in the state treasury, contending that many municipal defense programs now are "woefully weak" because of the lack of financial backing.

A. D. McLarty, executive secretary of the league, submitted the proposal to the state defense council in a letter asking that the council sponsor special legislation authorizing the state subsidy at the regular legislative session which convenes in January.

McLarty said the league proposed that the \$20,000,000 appropriation be a biennial fund, allowing \$10,000,000 yearly for distribution to all of the state's 1,124 incorporated municipalities on the basis of population.

It would be known as the "municipal civilian defense state distributive fund" and would be allotted in much the same way that the state now distributes aid to public schools, McLarty explained.

### Can't Levy Taxes

He said the league was asking for the state subsidy because cities have no authority to levy special taxes for civilian defense purposes.

"A lot of federal and state officials ask cities to do this and that without realizing that cities operate only within limits of authority established by the state," McLarty added. "If the state wants cities to set up thorough civilian defense programs, there are two ways to finance it—through special local taxes, or a state subsidy."

"Our position is, there is no sense in levying special local taxes, when the state treasury has a surplus of more than \$45,000,000, above the budgeted state income," McLarty said.

McLarty said cities needed money for such things as signal and communications systems, air

## Allied Concentrations in West Africa Seen as Possible 2nd Front

Bern, Switzerland, Aug. 26.—(AP)—The Rome correspondent of the Tribune de Geneve said today that reports of allied concentrations of transports and warships at Gibraltar and West African ports were current in Italy, where they were interrupted as possible preparations for opening a second front.

The correspondent said "these considerable concentrations," according to views held in Rome, might be intended as reinforcements for Atlantic convoys, "but it is also thought possible that they are destined for use in a surprise attack in the Mediterranean basin similar to that at Dieppe."

### Sinking of Dutch Ship Brings Total to 441

(By The Associated Press)  
The Navy announced today that a small Dutch merchant vessel had been torpedoed and sunk in the Caribbean area in mid-August, boosting to 441 the Associated Press total of announced sinkings of United Nations and neutral ships in the Western Atlantic since Pearl Harbor.

One crew member was killed, four are missing, and most of the 23 survivors suffered burns when a torpedo crashed into the merchantman just before midnight.

The ship sank in four minutes, but survivors were picked up 45 minutes later by a U. S. Navy vessel.

## German Siege of Stalingrad Near; Its People Armed

### Workers Leave Plants to Join in Defense of Steel City

Moscow, Aug. 26.—(AP)—Two successive German thrusts through Russian lines between the Don and Volga placed Stalingrad today in immediate peril of Siege. As the German tanks and other armored machines lunged ahead, thousands of workers from Stalingrad factories took up arms on the west bank of the Volga to help the Red army defend the great industrial city.

German vanguards had reached the flat, sandy plain extending to the Volga just northwest of Stalingrad and Russian tanks were fighting them in running battle, bringing them to at least a temporary halt.

Red Star said the German force which lanced between two Red army units had "reached a district just northwest of Stalingrad" before it was halted, implying that the invaders were only a few miles from the city if not at its suburbs.

Russian lines reformed behind screening tanks, the military newspaper reported.

### Situation Complicated

"The situation in this sector has become complicated," the soviet information bureau said.

Russian troops, however, were reported still repulsing attacks at the vanguards of a 1,000,000-man German army both above and below Stalingrad.

Only in the sector below Krasnodar were Russian detachments reported to have fallen back and defensive fire and soviet mines were declared to have accounted for seven more German tanks and 13 infantry-laden trucks in that western Caucasian campaign.

The army newspaper Red Star said several Nazi tank divisions had crossed the Don bend to the 40-mile corridor between the Don and Volga rivers and a tense engagement raged near a settlement northwest of Stalingrad.

## Informal Recess of House Is Over

Washington, Aug. 26.—(AP)—The month-old informal house recess appeared today to be headed for an abrupt end as irate southern members leveled their guns at senate revisions in a bill to permit men and women in the armed forces to vote by mail.

Their principal objection, they said, was to the senate amendment exempting service members from payment to the poll taxes required by Tennessee, Georgia, Alabama, Mississippi, Texas, Virginia, South Carolina and Arkansas. The senate adopted the amendment by a vote of 33 to 20 over the opposition of southerners who termed it an invasion of states' rights to determine the qualifications of their voters. The house previously rejected a similar proviso.

The senate also wrote in an amendment extending the vote-by-mail privilege to primary as well as general elections involving representatives, senators and presidential electors.

As revised, the bill permits any member of the armed services, including women, in any part of the world, to vote without registering or paying a poll tax. It does not apply to elections for state officials or change other state voting requirements.

### 150 of 1,400 Repatriates Returning on Diplomatic Liner at Ellis Island

Jersey City, N. J., Aug. 26.—(AP)—Government officials announced today that about 150 passengers among the more than 1,400 repatriates aboard the diplomatic liner Gripsholm had been taken to Ellis Island for questioning.

While there was no official comment on the reason for this, ostensibly it was because officials have found their papers unsatisfactory or wished to question them more intensively.

The U. S. immigration station is on Ellis Island and it is there that enemy alien hearings are conducted.

## Disturbed

Washington, Aug. 26.—(AP)—Army officials, disturbed by news that American soldiers at an Army camp in Egypt were required to pay for cigarettes sent by "Smokes for Yanks" for free distribution, said today an investigation was being made.

Lacking an official report, they suggested meanwhile that the explanation perhaps was that through a shipping mixup the free cigarettes somehow were delivered to the wrong destination, while others intended for sale were now being distributed free at another point.

The packing cases in which the packages or cartons were placed for overseas shipment may not have had distinguishing marks, it was said, or if such markings were placed on them at the time of shipment, they could have been obliterated by the time they reached Egypt.

## Three States Hold Primary Elections; Results Announced

(By The Associated Press)  
Two primary opponents who waged a heated battle for California's gubernatorial nomination were assured today of a return match in the fall elections.

The Republican nomination went overwhelmingly to Earl Warren, a leading state Republican, who also gave Governor Culbert L. Olson a dogged race for the Democratic nomination in yesterday's primary. Running on both tickets, Warren polled an aggregate of nearly twice as many ballots as Olson who sought only the Democratic nomination.

In one of South Carolina's closest primary contests, Senator Burnet R. Maybank, an administration supporter, held a relatively close lead over Eugene S. Bleasde, who campaigned as a champion of "white supremacy," for the Democratic nomination for U. S. Senate.

Mississippi's primary gave James O. Eastland, lawyer and planter, a 10,000 vote margin over his nearest opponent in the contest for the Democratic senatorial nomination.

His opponent in a primary runoff three weeks hence will be either Senator Wall Doxey or Rep. Ross Collins who were in a close battle for runner-up honors on the basis of unofficial and incomplete returns.

### Congressmen Lead

Five California congressmen whose voting records on defense and foreign policy drew campaign fire from opponents, took wide leads in their own party contests for renominations. They included Representatives Tom Rolph, Harry L. Englebright, Albert Carter and Richard J. Welch, Republicans, and John M. Tolan, Demo-

Princeton, Ill., Aug. 28.—(AP)—A Duroc entry of J. F. Carnicle, Mt. Sterling, was named grand champion of all breeds yesterday at the all-breed Illinois state barrow show at the Bureau county fair.

The show, usually held at the Illinois state fair, was sponsored by the Duroc, Hampshire, Poland China, and Chester White associations.

Grand champion pen of all breeds was won by Oscar Anderson, Leland, with his Poland Chinas. Grand champion and champion pen of Hampshires went to Walsh Bros., Beloit, Wis., who farms in Illinois.

Melvin Felf, La Moille, won a grand single championship with his Chester Whites, and the Duroc Jersey single championship ribbons went to L. L. Lehman and sons, Pleasant Plains.

## Organizations May Now Receive Sugar

Churches and lodges in Lee county who have experienced difficulty in obtaining sugar for the serving of meals, are now entitled to receive monthly amounts, it was announced today at the offices of the county rationing board.

Under a new ruling the regulation was broadened so that various types of organizations may be classified as individual users.

These organizations include civic, educational, charitable, benevolent, religious, and social welfare organizations.

Applications may now be filed at the rationing headquarters and permits are being issued for those groups coming under the new regulation, which will permit the groups to continue the practice of serving meals to obtain revenue.

## Results of Battle of Solomons Today "Are Encouraging"

Fighting Is Apparently Raging With Greater Fury in Wider Area

Washington, Aug. 26.—(AP)—Damaging of six more Japanese ships in the great sea and air battle for the Solomon islands was announced by the Navy today in a communique which said that the results of the fight to date "are encouraging."

The ships reported today to have been successfully attacked by American aircraft were two destroyers and four miscellaneous vessels. One of the destroyers was damaged by American dive bombers on the night of August 23-24, when the Japanese destroyer force was attempting to shell Guadalcanal island.

The other destroyer and the four miscellaneous ships were "left burning" after Marine and naval aircraft had blasted an enemy force of transports, cruisers and destroyers approaching Guadalcanal from the northward on August 24.

In addition to these vessels, the Navy had reported of this particular action yesterday that one cruiser had been left burning fiercely and a transport had been hit. Today, the transport was reported to have been abandoned "as the enemy force withdrew" from the Guadalcanal island area.

Total Over a Dozen

The list of Jap ships reported today as damaged raised to more than a dozen the enemy vessels damaged in the new thrust the Japanese undertook, starting last week-end, to drive United States Marines out of the Tulagi area of the Solomons, and regain that vital sector for future attacks on the supply line to Australia.

"It is too early," the Navy communique said, "to estimate the outcome of the battle at sea being fought off the Solomon islands, but reports to date reveal that our forces at Guadalcanal are holding their positions in the face of strong enemy thrusts and in each action have inflicted heavy damage on the attacking Japanese forces."

The wording of the Navy's official announcement indicated that the air and naval operations in the Solomons area were still in progress, and strongly suggested that there were still other vital actions to be heard from.

Reports Scattered

Yesterday it was reported that U. S. naval and air forces had engaged an enemy force of aircraft carriers, battleships and other war vessels approaching the southeast Solomon islands from the northeast and so far as could be determined, nothing in today's communique gave any detail on that action.

The summary view toward the whole Solomons action, however, was stated by the Navy in these words:

"The results, to date, of the battle for the retention of our foothold in the southeastern Solomons are encouraging."

Locked in thunderous sea and air engagements which may possibly determine naval supremacy of the Pacific, American forces inflicted severe damage on enemy warships and planes in the southeastern group of the Solomons while

heavy portion of its fleet in a desperate effort to dislodge American Marines from their hard won positions in the Solomons.

The counter-attack, fully expected by the Navy, already has brought bombing or torpedoing of more than a half dozen Japanese ships in the Solomons plus the straffing of two transports and destruction of a gunboat off south-eastern New Guinea.

**Carriers Damaged**  
The damaged vessels included one large and one small aircraft carrier. Additional punishment in the Solomons battle was inflicted by allied carrier-based planes on a Japanese battleship and several cruisers. U. S. aircraft left another enemy cruiser and transport in flames.

Thus far there have been no reports on the extent of American losses beyond the minor damage suffered at the opening of the conflict on August 23, when 21 Japanese planes were listed as destroyed in an attack on Guadalcanal island.

Approximately 150 miles west of the convoy action, MacArthur reported destruction of 13 grounded Japanese planes and silencing of an anti-aircraft battery in two surprise attacks on Buna, on the southeastern New Guinea mainland.

mans in fighting still progressing. A dispatch from Stalingrad said the people of the city had taken up arms on the high west bank of the Volga as the German armored forces bore down from the breakthrough at the Don.

Izvestia's correspondent said thousands of workers from the factories had been trained under battle conditions to use rifles, automatic machine-guns and mortars.

A ray of hope amid the somber military news was contained in a Red Star editorial which said "the battles in the south have entered a new phase" now that the Germans have reached the main barrier of the Caucasus mountains.

Defenders of Stalingrad slew 2,000 Germans and blasted 80 tanks out of action in eight engagements yesterday, the soviet information bureau said, and destroyed 92 planes of the bombers and fighters and aerial troop carriers which have swarmed against them in the last two days.

**Weather No Defense**  
Although chill winds blew in Moscow, heralding the approach of another Russian winter, the relatively moderate temperature range of the soviet deep south indicated the weather there would prove no significant defensive factor.

Russian anti-tank guns, grenades and incendiary bottles were used to repulse a number of assaults by the lower arm of the German pincer moving up from Kotelnikovsky, 95 miles southwest of Stalingrad.

"Four German tanks were disabled and damaged and about 300 Germans were killed," the midnight communiqué announced. Soviet troops fighting to hold strategic highways before the Caucasian mountains in the Prokhladnenski area were reported to have wiped out a group of automatic rifle men landed by German planes and to have repulsed several attacks.

Russian warships were said to have sunk a 5,000-ton axis transport in the Black sea.

The mid-day communiqué emphasized the severity of the fighting northwest of Stalingrad. "One soviet unit repulsed several serious enemy attacks, destroyed six German tanks and killed more than 150 Germans," it announced. "In another sector soviet infantry, supported by artillery and tanks, stubbornly repulsed the enemy attacks. In this engagement the Germans lost about 400 officers and men."

The battle of the upper Don developed with the reported repulse of a tank-led German attack north of Voronezh in fighting which cost the invaders 150 killed.

**CLAIM CITY AFIRE**  
Berlin (From German Broadcasts) Aug. 26—(AP)—A great fire is raging in Stalingrad and the city has been pounded day and night by the German air force with high explosive and incendiary bombs, the nazi communiqué declared today.

A large river vessel on the Volga has been sunk, three others damaged and a tanker set afire, it added.

The war bulletin again reported that nazi Alpinists had stormed passes high in the Caucasus mountains against fierce Russian opposition.

In the sector west of Leningrad, where the Russians have been attacking, it said the Red army had been driven back after extremely hard fighting.

The German air force has inflicted heavy losses on the Russians, particularly in the Rzhev sector west of Moscow, the communiqué added.

It said that from Aug. 1 to 23 the soviet air force lost 2,505 planes, compared with 140 German planes lost in the same period.

Southwest of Kaluga and on the Rzhev front west of Moscow, continued strong attacks by tank-supported soviet forces were acknowledged, but all were declared to have collapsed in the face of "unshakable" German resistance that destroyed 85 Russian tanks.

In the Arctic an enemy submarine was reported sunk by German naval escort vessels.

## AXIS TRANSPORT HIT

Cairo, Aug. 26—(AP)—British planes scored direct hits on an axis transport in the Mediterranean and attacked a land convoy moving reinforcements over the Salum-Matruh road toward the enemy front lines in North Africa the British headquarters-RAF communiqué said today.

Otherwise, however, the Egyptian front is quiet save for customary harassment of enemy patrols and working parties Monday night.

gle planes of the RAF bomber command attacked targets in western Germany and Holland by daylight yesterday, the Air Ministry said today.

Following up the daylight attacks, coastal command bombers sought out enemy shipping and hit two ships in a German convoy off the Frisian islands with bombs last night, the ministry said. Docks and shipping at La Pallice, a port on the Bay of Biscay, were also bombed.

One bomber failed to return from these operations. In East Anglia 12 persons were killed when a German bomb struck a shelter. The dead included a woman and her eight children.

**MENACE REMAINS**  
London, Aug. 26—(AP)—Despite heavy aerial attacks on De-putee yards and bases, German undersea raiders still constantly menace allied shipping, official British circles said today.

"The output of German submarines remains large and the allies must depend on anti-U-boat devices to protect shipping," a source said. "The submarine threat is still very grave and our attitude toward it should recognize this fact."

The Germans are devoting their entire naval building program to the construction of U-boats and therefore can afford material losses, the commentator said.

Messages from all corners of the world flowed into London. British editorials stressed the death as proof that Britain, from her highest family to her most humble, was in the war to the finish.

"He would not have wished for a better epitaph than that so concisely written for him in the Air Ministry communiqué, 'Killed on Active Service'," said the Daily Sketch.

Because of the wartime necessity for secrecy concerning the movements of the royal family, the funeral is expected to be private.

## Woman Who Sat on Lincoln's Knee Dies

Asbury Park, N. J., Aug. 28—(AP)—Mrs. Mary Frances Buckingham, who used to tell of sitting on Abraham Lincoln's lap when she was a child, died yesterday at the age of 97.

She traced her ancestry back to Daniel Boone and recalled Lincoln as a close friend of her grandfather, Samuel Boone, in Kentucky. Born Mary Howard, she eloped in 1866 with Dr. Marshal De Lany, whose best man at the wedding was Samuel Clemens, the "Mark Twain" of literature. Dr. De Lany died in 1885 and four years later his widow married Dr. Frederick Buckingham, who died in 1910.

As for the average farm family, he said, it was not proper to say such a family lives off the farm, as it buys canned goods, clothing, and household needs in the store, and when the cost of such things go up the farm family is very deeply affected—almost as much as the city family.

War Time, and the immediate audience will be an assembly of the International Students Service here, including students from all of the United Nations.

Stephen Early, presidential secretary, said:

**To Youth Everywhere**  
"The president will speak through this assembly to the youth of the world everywhere, in United Nations and enemy countries, too, if they can be reached, emphasizing the duties, responsibilities and opportunities of youth in the days of war and in the days of peace that will follow."

Early said an effort would be made through the Army, Navy and Office of War Information, to complete arrangements for men on naval and coast guard vessels and men in military camps, wherever they may be, to hear the chief executive's talk.

The August 31 address, which will be about ten minutes long, Early said, is set for about 3:30 p. m. Central War Time. The Navy will arrange for the program to reach Navy units and hospitals at stations all over the world where representatives of the bureau of medicine and surgery are on duty.

Many of the United Nations, including Russia, the Netherlands and England, Early said, are sending official delegates to the students assembly.

China was unable to do so, he said, but Madame Chiang Kai Shek, wife of the Chinese generalissimo, will designate her country's representatives.

the elements for a decision which may be a sure guide to the outcome of the war with Japan. We appear to have the advantage of being able to meet the Japanese warships with land-based bombers, and that in itself might spell disaster for the Mikado's forces.

If we can inflict on the Japanese now a further heavy naval loss, without ourselves suffering severely, then we probably shall have settled the supremacy of the Pacific in our favor. That won't be one but a whole handful of nails in the Jap coffin.

Why should the Nipponese make such an attack? Well, in the first place the Jap is a persistent devil and one of his characteristics is that he won't take a knock in the eye without returning to try to restore his standing in society. Beyond that, however, the islands which our Leatherneck Marines now hold by right of bloody combat represent a base from which we can strike at the other Japanese conquests in that area and so threaten Indonesia. Our possession of these islands also deprives the Japs of an invaluable base for operations against Australia and weakens the barrier they erected across our communications with Australia.

## LINKSWOMEN OF PLUM HOLLOW APPROACH FINALS IN THEIR AUGUST CHAMPIONSHIP EVENT

Sometime soon, probably before Sunday, the final Class A match of the women's August championship tournament at the Plum Hollow Golf and Country club will be played off by Mrs. Elwin Wadsworth and the winner of a contest (yet to be played) between Miss Kathryn Herman and Mrs. P. J. Malay. One of the two finalists will win the club title.

Mrs. Elwin Wadsworth approached the finals yesterday by defeating Mrs. Joseph Villiger, Jr., the bout being a highlight of the weekly ladies' day event at the club. In B-flight matches played yesterday, Mrs. Wallace Hicks, Jr. won from Mrs. Ernest Swan, Miss Virginia Klein was successful in her contest with Miss Fern Cline, Miss Mary Jane Hobert lost to Mrs. Larry Poole, and Mrs. George Scott finished ahead of Mrs. James Reiter. Mrs. Charles Cramer and Mrs. Charles Sworn are opponents in another B-flight match, not yet played.

Because the tourney is running a bit behind schedule, the Stagette Day festivities, tentatively planned for Sept. 1 will be delayed, probably until Labor Day.

Mrs. Wadsworth also had low gross score for the day yesterday and Mrs. Ernest Swan carded low putts. A dozen linkswomen were out for luncheon and golfing.

## TRUE BLUE CLASS ANNOUNCES PICNIC

The True Blue class of the First Christian Sunday school is planning a picnic for 12:30 o'clock Thursday at Lowell park. Those residing south of the river are to meet at the church; those on the north side are asked to meet at John Dixon park not later than 12 o'clock; and those driving cars will call at the church and John Dixon park for those without transportation. Each member is to take her own dishes, sandwiches, and a dish to share. In case of unfavorable weather, the dinner will be served at the church.

## AT LAKE LAWN

Vacationing at Lake Lawn hotel at Delavan, Wis. for a few days are the L. G. Rorers, and their three children, also Mrs. C. O. ## DINNER GUESTS

Mr. and Mrs. James Angell entertained with a buffet dinner last evening at their new home on North Ottawa avenue.

## WAR CASUALTY

Because of unsatisfactory attendance and inability to secure competent help, the management of Deer park has decided to close the area on Sept. 7. "Since conditions undoubtedly will get worse before they get better, this probably means we will be closed for the duration," says Frank M. Bane, agent, who concludes "It is with regret that we take this action, and we do want to thank everyone who has contributed in any way toward making our non-profit park venture a success."

## Junior Clubwomen Are Dinner Guests of Their Sponsor

The responsibility of providing milk for underprivileged children at the Lincoln grade school is being shouldered by young women of the Junior Woman's club this year. Plans for assuming sponsorship of this worthwhile service project were discussed last evening at a dinner meeting of board members at the home of Mrs. Earl Auman, club sponsor. Twenty-four young clubwomen were received by Mrs. Auman, who seated her guests at tables that were attractively arranged with zinnias.

Mrs. George M. Joyce presided during the business meeting which followed the dinner. The Misses Maxine Galor and Minnie Trogolo were welcomed as new members. Mrs. William Watson's name is also to be added to the membership roster.

On Sept. 22, there is to be a "Round-Up" at Lowell park, honoring the new members. The club's second season since organization will open in October, with resumption of regular meetings. A varied program is planned.

## ASHTON CHURCH IS SPONSORING AMATEUR PROGRAM

The Young People's Missionary circle of the Ashton Evangelical church will sponsor an amateur program in the church basement at 8 o'clock Friday evening. Contestants who plan to participate in the program are asked to be at the church, not later than 7:15 o'clock, and the public is invited. No admission charge will be made, but a free will offering will be received.

## BIRTHDAY BREAKFAST

A Thought for Today

The waters wear the stones.—Job 14:19.

Attempt the end and never stand to doubt;  
Nothing's so hard, but search will find it out.  
—Herrick.

Toward Ararat

Away back in the beginning of mankind, God  
looked upon the earth and noted that man had  
grown too big for his pants, as the saying is. With  
few exceptions, men had grown so wicked that the  
Deity figured He had better cleanse the earth and  
start with a clean slate.

There was one man who was just, and "perfect  
in his generations." God investigated him and  
gave him a tip on a huge rainstorm that was being  
brewed.

This man Noah was ordered to build a three-  
story ark with one window and a door in its side.  
Into this ark he was to take his family and a menag-  
erie of animals. Contrary to the general impression,  
Noah was not ordered to "take in the animals two  
by two." He was told to take the "unclean" beasts  
two by two, but the others, such as sheep and  
cows, he seems to have accepted by fourteens—  
seven males and seven females.

To make a long story short, Noah did as he was  
bidden. He gathered food for his family and all the  
beasts, reptiles and so on, and then at the appointed  
time he got aboard and waited.

No doubt Noah's neighbors called him a crack-  
pot, but Noah just waited, and finally it came. As  
a rain there has been nothing like it since, nor prob-  
ably was there anything like it before. It was a  
toad-strangler, a stump-floater. By the time  
Noah's neighbors were up to their necks in water  
they began to realize that their crackpot neighbor  
really had something on the ball, but it was too  
late to do anything about it, then. So they paddled  
around and at last disappeared.

Noah and his cruiser and menagerie floated a  
considerable length of time. The common impres-  
sion is that they remained aboard forty days and  
nights, but that really was the length of time dur-  
ing which the waters fell, and the fountains of the  
deep were opened. A wind sprang up and the waters  
were assuaged, and after 150 days the waters were  
abated.

Finally the ark came to rest on "the mountains  
of Ararat," which was what we started to write  
about in the first place. Mount Ararat, on a relief  
map, is seen to consist of six peaks, the tallest being  
17,000 feet. It seems to be located in Turkey, but  
the Russians may have a different notion about  
boundaries. Mount Ararat used to be mentioned as  
in Armenia, which seems to have disappeared with-  
out notice as a country. By the way, what has be-  
come of Armenia? We've asked that question be-  
fore in this column, but got no answer.

Ararat is located between the Black and Cas-

plan sea, not far south of the Batum pipeline about  
which the nazis and Russians have been kicking up  
such a fuss, and unless something stops this modern  
sinner who has got too big for his pants, he is likely  
to see Ararat.

So what? Nothing at all, except that the biblical  
story about Noah and his household contains a refer-  
ence that ought to be interesting to Hitler and  
Benito.

"The earth also was corrupt before God, and  
the earth was filled with violence."

And again:  
"Whoso sheddeth man's blood, by man shall his  
blood be shed."

Adolf can remember that if he marches past  
Ararat.

Some Cities Try

Taken as a whole, our cities have shown too  
little appreciation of the necessity for retrenchment  
in civilian expenses. The aggregate municipal  
budget has risen at a time when it should have been  
pruned to the bone.

There are exceptions which bring encourage-  
ment. The International City Managers' Association  
reports on a few. They include Yonkers and Wat-  
ertown, N. Y.; Mason City, Ia.; West Palm Beach,  
Fla.; Knoxville, Tenn.; Pasadena, Calif.; Winneka,  
Ill.; Rumford, Me.; Asheville, N. C.; Sterling, Kan.

By eliminating public works construction, cur-  
tailing certain operations, doubling up the duties of  
men who have gone into the armed forces, cutting  
down on traffic policing now that automobile traffic  
has been reduced, these communities have found it  
possible to finance civilian defense expenses and  
still reduce overall costs.

More power to them.

Still Speeding

There must be some way of impressing upon  
motorists how close to treason it is to ruin tires by  
speeding and needlessly sloppy driving. Yet appar-  
ently none has been discovered. Perhaps when the  
Baruch committee reports, its findings will shock  
the populace into common sense.

A 10-state survey shows that more than half  
the drivers still exceed 40 miles, the speed limit  
recommended by the President, which still is too  
fast in view of the emergency we face. The most  
casual observation demonstrates that the jackrabbit  
start, the brake-slammings stop, the scraping of  
curbs in parking, the fast turn that makes tires  
squeal in protest—all continue just as though we  
were not at war.

It is very, very discouraging to those anxious  
to win.

Ingenuity at Work

Gasoline companies, anxious for continued sales,  
are demonstrating that the old profit motive still  
has its virtues.

One corporation has worked out a scheme sup-  
posed to save another 40 per cent of gasoline by  
cutting out half the cylinders. Another has a tire-  
saving method about ready for publicizing. Neither  
may work, or both may prove successful. That isn't  
the point. The point is that whenever we get into  
trouble somebody, hoping to make an honest dollar,  
gets busy and finds a way out.

That always has been the American way. In-  
cidentally, it is the capitalistic way. It has done  
pretty well for this country.

Inefficiency may be excused unless it's due to  
indifference.

BEHIND  
THE NEWS  
By PAUL MALLON

(Distributed by King Features  
Syndicate, Inc. Reproduction in  
whole or in part strictly prohib-  
ited.)

Washington, August 25.—While  
soot from scattered labor fires  
has been soiling the front pages,  
Roosevelt's trouble-compromiser,  
Judge Samuel Rosenman, has  
been prowling around the govern-  
ment seeking a new administra-  
tive formula for wages and prices  
which might wet the situation  
down somewhat.

Alternative recommendations  
were slipped into Roosevelt's  
pocket by his adviser without an-  
nouncement last week:

1. That the War Labor Board  
be expanded into a wage control  
board, handling not only the cases  
for the unions that come before it  
now, but administering an affir-  
mative national wage policy, de-  
signed to hold wages down.

2. That a new economic con-  
trol board over wages and prices  
be formed to act in a purely top  
policy-making capacity. It would  
be made up of Price Administrator  
Leon Henderson, Manpower  
Administrator Paul McNutt, War  
Labor Board Chairman Davis,  
Donald Nelson of WPB, Agricul-  
ture Secretary Wickard, and  
Chairman Eccles of Federal Re-  
serve.

This second alternative looked  
to every one like the one Roose-  
velt would adopt as the basis of  
a new wage-price stabilization  
policy. If he built up WLB and  
left Henderson to continue as  
now, the rearrangement would  
preserve the worst existing fea-  
tures of conflict between the two  
organizations.

But even if he took the second  
plan and built a new coalition  
board to threaten out both wage  
and price policy, he would have  
to lay down the policy himself,  
because those six men could hard-  
ly be expected to agree on one  
themselves. He would have to  
effect a compromise between  
Henderson, Davis and Wickard  
for instance, and their super-  
board would merely direct existing  
administrative bureaus to change  
and conform.

Attorney General Biddle is sup-  
posed to have told the president  
he can do this without going to  
congress for legislation and open-  
ing the matter to debate.

Judge Rosenman also has been  
searching quietly for a solution  
of another subject—the establish-  
ment of coherence in the produc-  
tion effort between Nelson, the  
Army, Navy and others.

In this case also Rosenman is  
supposed to have recommended a  
super-board, composed of the  
heads of all the agencies involved,  
in order to end the differences  
between them.

An announcement from the  
White House on both these mat-  
ters was expected last week, but  
failed to appear. The supposition  
prevailing on the outside is that  
the president decided to wait un-  
til political campaigns in various  
states were over, before stepping  
out with such powerful reorganiza-  
tions.

Raid No Surprise  
Lost point in most current dis-  
cussions of the surprise Comman-  
do raid on Dieppe is that it was  
not a surprise.

That kind of an attack relies  
for full success, not on over-  
whelming numbers or superior  
force, but on catching the de-  
fenses unaware. The advantages  
of carefully placed, defending  
guns, protected by concrete, steel  
and sandbags, generally can be  
offset only if the defenders are  
off guard.

In the light of the fact that the  
expedition was unfortunately dis-  
closed offshore by four anti-air-  
craft gunships (flakships), and  
the nazis at Dieppe were fully  
forewarned and in their places  
ready to receive a storm, the feat  
of arms becomes doubly remark-  
able for accomplishing as much  
as it did.

But that same light casts specu-  
lative beams on how much more  
would have been accomplished  
with less loss, had our ships not  
stumbled upon the nazis unex-  
pectedly in the darkness.

Also this was almost entirely a  
Canadian show. Our participa-  
tion was restricted to experiment-  
al cooperation.

Incidentally, the London re-

ports have conveyed an impres-  
sion that our participants are re-  
turning to the United States to  
act as instructors, suggesting  
that their experience may not be  
used again immediately in "Com-  
mando action."

Only a portion are returning  
for teaching. The others will lead  
more raids in which U. S. forces  
will participate in greater num-  
bers—and with greater secrecy  
assured.

No more stray flakships will be  
allowed to discover our purposes  
and spread an alarm.

It was truly a daring Com-  
mando-like feat of politics when  
General Jim Farley took control  
of the president's party in the  
largest state of the union—al-  
though it was not a surprise and  
may not have the wide repercus-  
sions which are commonly fore-  
cast.

Overlooked and controlling  
point of Farley's raid was that ev-  
eryone expects the Republican  
Dewey to win the state in Novem-  
ber.

Dewey has long seemed to be  
an odds-on favorite to mop up  
the Democrats' split, whether Mead  
or Bennett was nominated, no mat-  
ter the American Labor Party.

The popular Lehman only beat  
him by 64,396 votes in 1938 (out  
of nearly 4,700,000 votes cast).  
The odds would even have been  
against Lehman if he had run  
again.

Thus Farley is apt to wind up  
with a Democratic party control  
in the state, weakened by lack of  
any kind of pap to sustain it. He  
cannot get any federal or New  
York City patronage, and if Ben-  
nett loses he will be without state  
patronage.

Faced with such difficulties, it  
would be difficult for him to  
build up any kind of a formidable  
machine, even though he is the  
most astute politico in the busi-  
ness.

Farley fought for what he  
thought was right and got nearly  
even for what was done to him in  
Washington, but you can see, if  
you sift the facts further, that his  
powder for the 1944 presidential  
contest is more uncertain than  
popular comment suggests.

If Roosevelt wants a fourth  
term and the war is won or be-  
ing successfully prosecuted in 1944,  
anyone who would favor  
White House chances of getting  
the New York delegation to the  
next convention. However, Farley  
could probably swing the delega-  
tion against any other person  
Roosevelt would try to name as  
his successor.

No one can see so far ahead  
these days with any clarity but  
as Democratic matters stand to-  
day, anyone except Roosevelt  
would have a very hard time get-  
ting that Democratic nomination  
nationally.

How broke are the Republicans  
can best be gauged by considering  
that they chose a Democrat (a  
capable anti-Roosevelt Democrat,  
Sam Pettigill, of Indiana) to  
head their money-raising finance  
committee.

How pressed and unorganized  
they are can best be judged by  
two other observations:

The rich CIO bought the well-  
placed building which Republi-  
cans rented for headquarters, less  
than half a block from the White  
House, and chased them out, fur-  
ther up Connecticut avenue.

Republican senators and rep-  
resentatives are almost unanimous  
in the opinion that the titular  
head of the party, Willkie, could  
get the Democratic party nomina-  
tion for president today much  
easier than he could get the Re-  
publican organizational support  
around here has almost entirely  
fallen away. Only the Dewey  
chances are ascending on the  
nether political horizon.

America's millions are on  
the move from where they  
are to where they're needed  
most. And this tremendous  
movement of manpower  
has brought changes in busi-  
ness service today. For better  
going on your next trip, we  
suggest you follow these tips:

1. Plan trips well in ad-  
vance; go during mid-  
week.
2. Select schedules which  
are least crowded.
3. Get tickets early. Take  
only one traveling bag.

WHEN A GIRL MARRIES  
BY RENE RYERSON MART

COPYRIGHT, 1942,  
NEA SERVICE, INC.

THE STORY: Enid Sharon,  
stenographer, decides to settle  
down with Tom Driscoll, whom  
she has promised to marry.  
When her parents are invited to  
a lake resort Enid engages a  
furnished apartment, telling  
Tom she must make a trip out  
of town with one of her em-  
ployers. The man who shows  
her the apartment is Dr. Henry  
Holiday, son of the city's lead-  
ing surgeon, whose picture Enid  
had admired in a newspaper.

LADY FOR A MONTH  
CHAPTER V

THE first thought that surged  
into Enid's waking mind that  
morning was THE APARTMENT.  
She had rented it. There was no  
chance to change her mind now.  
For once, she had actually dared  
to do something she wanted to.  
For a whole month now she could  
live a glamorous life.

But there were a lot of details  
to be attended to before she could  
enter into the enjoyment of her  
secret paradise. She made excited  
plans as she dressed. First of all,  
she would try to get her vacation  
to start immediately. For having  
rented the apartment at what, to  
her, was an exorbitant rental, she  
wanted every possible minute in  
which to enjoy it.

She didn't really think there  
would be any difficulty about get-  
ting her vacation on such short  
notice. August was a slack time  
at the plant, and with John Stan-  
ton, the big boss, away, there  
would be even less doing than  
usual.

She intended to tell no one,  
either at the office or at home,  
what she was going to do with  
her vacation. Her plans were in-  
nocent enough, but no one would  
understand. They would think it  
ridiculous, if not downright in-  
sane, to spend her savings and  
vacation hidden away in a nicely  
furnished apartment, enjoying  
rather furtively for one short  
month the surroundings and at-  
mosphere of a more gracious way  
of living than would ever be hers  
as Mrs. Tom Driscoll.

As it was, things would work  
out nicely. Pop and Mom would  
think she was working and stay-  
ing at home. Letty would be out  
of town with them. And she had  
already told Tom that she was  
going away for a month.

That brought to her mind an-  
other detail that she mustn't over-  
look. She'd have to make some  
arrangement about her letters to  
Tom. . . .

**POLO**  
Mrs. Eva Trump  
Phone 213X  
If you do not receive your paper by 5:30, call Mrs. Trump.

Richard Schell has gone to Stoughton, Wis., to spend a week. His wife and daughter who have been vacationing there, will return home with him.

Mrs. Max Snook and baby left Saturday to make their home in Springfield, where Mr. Snook is employed as a cement finisher.

Mr. and Mrs. David Weber and family spent Sunday in Naperville at the home of Mr. and Mrs. Nick Krantz and family.

Mr. and Mrs. Laurence Reed and daughter Myrna of Adeline and Edward Totenhagen and daughter Ann spent Sunday afternoon with Mrs. Totenhagen, who is a surgical patient in the Dixon hospital.

**Pink and Blue Tea**  
Class No. 9 of the Lutheran church entertained the ladies of the church at a pink and blue tea party, honoring their pastor's wife, Mrs. Martin Kabele, Saturday afternoon from 2 to 4 in the church parlors.

**Grade School Opens Sept. 1**  
The Polo grade school will open on Tuesday, Sept. 1, for the 1942-43 term. The faculty for the new year will be the same as last year except for instruction of band instruments. These lessons will be taught by Wesley Gallup of the high school faculty. The other teachers will be as follows:  
M. Vera Joiner, first grade.  
Mary Zigler, second grade.  
Stata Burke, third grade.  
Mary Elizabeth Hanes, fourth grade.  
Mildred Fink, fifth grade.  
LaMoine Gayman, junior fourth high school English and sewing.  
Faldene Winters, junior high school geography and girls' physical education.

**Corn Carnival**  
Polo's corn carnival opens tomorrow for two days, Aug. 26-27. On Wednesday the WLS Angers and Rusty Gill, the WLS cowboy baritone and guitarist, will be here. On Thursday Mac and Bob, famous WLS blind musicians and singers will be featured. There will be parades both days at 1 p. m. Flower show at the town hall. Concessions, rides, Polo blackface quartet, hobby show, games, Alabama clog dancers. Music will be furnished Wednesday night for the dance in the town hall by Twill-Du-Four. On Thursday evening the WLS barn dance band will furnish the music.  
Blind persons of Ogle county will be guests of honor at the corn festival Thursday afternoon for the Mac and Bob program. Mac and Bob are the blind musicians who have attained a national following for their WLS appearances. All blind persons are requested to come to the stand where there will be seats and where Mac and Bob will meet them personally. The Woman's club and Civic League extend a cordial invitation to everyone to attend.

**What You Buy With WAR BONDS**

The sixteen-inch coast gun is the most powerful of all American guns and costs about \$2,000,000 each. It will throw a shell weighing up to a ton many miles. The Coast Guard also has an eight-inch mobile railway gun which will hurl a heavy projectile about 18 miles.

For defense of our homes, the Coast Guard needs many of these powerful weapons. You can do your part to help pay for them by investing at least ten percent of your income in War Bonds and Stamps every payday.

# State-Wide Drive on Prostitution Begun by Peace Officials

## Campaign Under Direction of T. R. Gowenlock, State Coordinator

Springfield, Ill., Aug. 25—(AP)—City and county officials in the state's key military war industry centers have promised Thomas R. Gowenlock, law enforcement coordinator for the state defense council, "100 per cent co-operation" in a state-wide drive against prostitution to combat the rising venereal disease rate among soldiers and war plan workers.

Gowenlock announced that local efforts to stamp out vice would be redoubled after 50 mayors, police chiefs, sheriffs and state attorneys met yesterday afternoon to discuss methods of meeting the problem and averting the threat of the Federal Bureau of Investigation to step in unless local officials act.

The state defense council coordinator was authorized at the meeting to act as a clearing for complaints from army and navy officials who have charged that in some localities the efficiency of soldiers, sailors and war industry workers has been impaired by outbreaks of venereal disease. Under the plan, complaints will be made to Gowenlock and he will notify local officials whose communities are involved and give assistance if necessary.

### Meeting Secret

Secrecy surrounded the meeting but Gowenlock said afterward that he pointed out to the local officials "the disgrace that will come to any locality if local officials fail to curb prostitution and venereal disease and the fed-up in." Under the May act, the FBI is empowered to supersede local authorities if the war or navy department asks that the act be invoked to control venereal disease.

"I don't think the May act will have to be invoked in Illinois," Gowenlock added. "Conditions generally are pretty good. It's true that there are some bad spots but they will be cleaned up."

"You would be surprised at the tremendous strides taken in the last 10 days to close houses of prostitution."

He declined to make public the list of officials invited to the meeting but among the communities represented were East St. Louis, Springfield, Peoria, Rockford, Kankakee, and Joliet. Every section of the state where military establishments or war plants are situated was represented, he said.

# Inclusion of Auxiliary Civilian Defense Units in County Units Urged

Councils of Defense today were urged by Capt. William F. Waugh, chairman of the civil protection division, Illinois State Council of Defense, to include civilian defense auxiliary groups in their organizations.

OCD recently specified the persons who may be included, Captain Waugh said. He advised that communities decide the number of persons they may need.

The list of persons who may be included follows: Doctors and registered nurses, other than those already enrolled in emergency medical service units; ambulance drivers, members of the clergy who may be required to make sick calls, reporters, press photographers, news reel men, operators of essential local and interurban transportation facilities, railroad employees, utility company employees, except those enrolled in utility repair squads, telegraph messengers, burglary and fire protection service employees, representatives of humane societies, undertakers, forest fire fighters, health department employees, governmental officials, and the personnel of Civilian Public Service camps.

# Victory Gardeners Asked to Save Wood Ash for Fertilizer

With the advent of cool weather and burning of wood in fireplaces, Victory gardeners today were urged to save wood ashes and store them in a dry place for use as fertilizer next spring.

The request was made by Lester J. Norris, chairman of the Victory Gardens committee, Illinois State Council of Defense, who pointed out that wood ash provides one of the oldest and best known sources of potash. Potash, nitrogen, and phosphorus, he said, are necessary ingredients in all plant life.

Due to a WPB ruling banning sale of plant foods containing chemical nitrogen, except for 1943 commercial food crops, Victory gardeners have been asked by the committee to produce their own food to make fertilizer, Norris said. Garden chairmen in all communities.

Wendall Schrader was offered the coaching position at Sycamore on August 22nd. The Mt. Morris high school board of education has given him a release from his contract feeling that he is worthy of this advancement.

Mr. Schrader has been athletic coach and teacher of social science subjects for the past eleven years in the Mt. Morris high school. He has been very successful producing outstanding football and basketball teams in the Rock river conference. In both 1939 and 1941, the Mt. Morris high school basketball team won first place in the regional basketball tournament. They have won second place a number of years and have been eligible to go on to the sectional contest a number of years.

the girls physical education in the Mt. Morris high school during the past four years. She has also had charge of the G. A. A. organization which has been very active in the Mt. Morris high school.

Mr. Hoff has received word from Mrs. Paul Fischer, who is Miss Mary McColl's sister at Beatrice, Nebraska, stating that it will be impossible for Miss McColl to return to the Mt. Morris high school because of illness. Miss McColl has taught in the Mt. Morris high school for the past thirteen years. She has been teaching English and Latin and has been advisor for the senior class and director of the Mt. Morris high school annual. No one has been hired to replace these teachers, but it is hoped that the vacancies will be filled by the opening of school on September 1st. The students and patrons of the Mt. Morris high school will regret to hear of Miss McColl's sickness, and that she will not be able to return to the Mt. Morris high school this fall.

Textbooks will be sold at the high school on Friday, forenoon, August 29th to the junior and senior students. Books will be sold to freshmen and sophomores on Friday afternoon, August 28th from 12:30 to 4. Students will be given their schedule of classes, assembly seat assignments, and locker assignments.

Mr. Hoff will have a faculty meeting on Monday, August 31st at 9 o'clock. High school will start with a full day of school on Tuesday morning, September 1st.

Guests this week in the home of Mr. and Mrs. Fred Park are the latter's cousin, Miss Betty Gilbertson and nephew, Bob Osborn of Lincoln, Neb.

Mrs. Josie Ray was called to Grand Rapids, Mich. Monday by the death of an uncle. She was accompanied by her son, George.

Mrs. Al Davis, chairman of the Red Cross announces that the materials for surgical dressings is on hand and this week instruction will be given to six leaders and their assistants and volunteers are called to enroll in the surgical dressing classes.

# Here's a new wartime way to switch tires . . . and get the most mileage!

Standard Oil Dealers' "Gauge Method" puts each tire where it can give most service—gets longest life from entire set. This new method of tire switching puts the strongest tire where it gets the heaviest wear and the weakest tire where it gets the lightest wear. The first step is to get a mileage estimate which shows the condition of each tire. Your Standard Oil Dealer can give you this estimate in a matter of seconds. He uses the new Standard Oil Dealers' Tire Mileage Gauge, a measuring instrument which shows the approximate future mileage possibilities of each tire. Then he switches tires accordingly. He knows how to get the longest possible mileage from your rubber.

1. Have each tire switched in accordance with its condition. Actually one tire on your car can wear out almost 3 times faster than another if they aren't switched. Place your best tires where you get the most wear.

2. How wear varies from wheel to wheel. Tire wear varies from 14% on left front to 38% on right rear. So, put poorest tire on left front wheel, next poorest on right front wheel, best on right rear, and next best on left rear.

3. Repeat this common-sense switching every 2500-5000 miles. (Older tires should be switched every 2500 miles.) Let your Standard Oil Dealer gauge your tires, switch them when necessary and keep them properly inflated.

... And here are some ways you can help Uncle Sam. 1. Join the salvage drive. 2. Buy United States War Savings Bonds and Stamps. 3. Drive under 40—share your car—to conserve rubber.

Their is the job of carrying supplies to our fighting forces. They get little or no rest . . . little or none is needed. Ruggedly built, they can "take it."

And what a job they're doing! Into them go tons and tons of vital war materials. Their destination? Makes little difference. A hundred mile jaunt or a 3,000 mile journey, the result is the same—needed supplies for the men who man the guns.

The rolling stock of America's railroads was never in finer condition than now, and here at "North Western" we consider it our sacred duty to keep it that way—for America's fighting men and for you.
